

UNIFIED WIRE & CABLE

EST. 1965 · MADE IN U.S.A.

Wireless. It took us *60* years to admit it.

A pair of white AirPods is positioned between the words "60" and "years" in the headline, visually connecting the old and new technologies.

Six decades drawing copper into wire that runs America. This week, we're handing out the kind of audio cable our founders never saw coming. Scan your badge to enter the AirPods drawing — Wednesday and Thursday only.
